Course Information:	Anatomy and Physiology is nowadays a prerequisite to doing any form of full body massage such as the Eastern Body Massage Course offered by DT Therapy School or the likes of Swedish Massage and the course will be focused around this. This course is open to all who have a wish to learn more about the body, whether you are just beginning your journey in to the world of complementary therapy, or wishing to refresh your knowledge or just simply curious about how the body works! It is important that you dedicate time to completing the modules, there is a time limit on completing the course, which is 1 year. You may need paper/notebook and pen for any notes or revision work. When exams are returned, It is our aim to have exams marked with 24-48hrs, Monday to Friday, those sent over the weekend will take slightly longer. When an exam is returned for marking, you start reading the next section
